## DETAILED ACTION

### ***Species Election***

This application contains claims directed to more than one species of the generic invention.

The species are as follows:

- 1) a single disclosed poly(N-vinyl lactam), for example polyvinylpyrrolidone (PVP)
- 2) a single disclosed therapeutic agent, for example ethyl alcohol
- 3) a single disclosed polysaccharide, for example chitin
- 4) a single disclosed consistency modifying agent, for example polyvinyl alcohol
- 5) a single disclosed cross-linker, for example glutaraldehyde

Since Applicant has selected Group II, Applicant is further required to make an election from each of the subsections 1-5 above. Currently, claims 24-32, 34-50 are generic to a plurality of disclosed patentably distinct species. Once the species elections are made, Applicant is requested to specify the claims that read on all of the elected species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Note the court in *In re Herrick et al.* and *In re Joyce et al.* (both at 115 USPQ 412) held that an election of species requirement was, in fact, a restriction requirement.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on record that this is the

Art Unit: 1617

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call to the attorney is not required where: 1) the restriction requirement is complex, 2) the application is being prosecuted pro se, or 3) the examiner knows from past experience that a telephone election will not be made (MPEP § 812.01). Therefore, since this restriction requirement is considered complex, a call to the attorney for telephone election was not made.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yong S. Chong whose telephone number is (571)-272-8513. The examiner can normally be reached on M-F, 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, SREENI PADMANABHAN can be reached on (571)-272-0629. The fax
